SAN DIEGO, CAL., THURSDAY, DEC. 18, 1851.

COL. HARASZTHY — In looking over the numbers of our paper, published during our recent absence at San Francisco, we observe a paragraph which implies a censure on the official acts of this gentleman, which in justice to him requires explanation. It is in reference to his enforcing the payment of taxes by the Christianized Indians owning ranches in this county, which, it is said, has led to this recent outbreak. We have only room this week to refer to the matter, and to state, if there are any persons who wish for further information, that we have in our possession a letter from the Attorney General, to Col. Haraszthy, dated 20th August, 1851, in which he is authorized to collect taxes of the Indians in the manner he did.
