

**ASSAULT OF AN OFFICER.**—On Monday, says the *Town Talk*, Marshal McKenzie and Capt. North visited a French billiard room on Merchant street, between Montgomery and Kearny, to abate a nuisance. After accomplishing their purpose, and after the departure of the Marshal, some of the party became very abusive and insulting towards Captain North, and finally about half a dozen of them "went in," when the Captain was obliged to exert to the utmost his skill in the "manly art." A gentleman below hearing the row, went up stairs, when the two cleaned the room, and arrested the ringleaders.

**AN UNPLEASANT CITY.**—The San Franciscans have been for a few days in ecstasies over their delightful weather, but already a change has taken place, and Monday afternoon was foggy and misty, resembling the climate that usually prevails in the metropolis during the summer months. Until next November they must indeed envy the climate of their up river neighbors.

**INDIAN DEPREDATIONS.**—On the South Fork of Trinity River the Indians have recently proved to be troublesome. A few days ago they stole a pair of horses valued at \$500. They were overtaken and three of them killed.

**RUMORED NEW DIGGINGS.**—The California *Express* hears that new diggings have been discovered at Red Bank, fifteen miles from Tehama. If so, they will be the first discovered in the county, which have ever been chronicled by this journal.

**EDITORIAL CHANGE.**—Edward Trask is now the editor of the *Trinity Times*. Edward A. Rowe still continues as publisher. The latter gentleman is also to act as agent of the Pacific Express Company.
