

has paid for full copies they should have been furnished, or some good reason given in justification of the delivery of imperfect copies.

This printing matter is one of importance to the people, so much so that we submit for their consideration the sums of money which have been annually appropriated to this branch of the public expenses, since the organization of the State to June 30, 1854. The report for the fiscal year ending June 30, 1855, is yet to come into the calculation, which will swell the aggregate probably some \$125,000.

For first fiscal year, ending June 30th, 1850.....	\$ 74,073 25
For second fiscal year, ending June 30th, 1851	100,933 51
For third fiscal year, ending June 30th, 1852	159,845 77
For fourth fiscal year, ending June 30th, 1853	202,494 39
For fifth fiscal year, ending June 30th, 1854	167,610 71
Total.....	\$644,957 63

To the above amount add the appropriations made by the Legislature of 1855 to meet former deficiencies for paper, printing, &c.:

By an act of Feb. 2d.....	\$100,000 00
By an act of March 14th....	3,250 00
By an act of April 11th....	17,713 05
By an act of April 27th	60,000 00
	\$180,963 05

Which, with the former sum, makes a total, in the short space of five years, of the enormous sum of.....\$825,920 68

NEW INDIAN RESERVATION.—From the *Times and Transcript* we learn that on Saturday morning Major Heintzleman, with a small party, left San Francisco on an expedition to the Russian river country, for the purpose of making an examination with a view to the location of another

annation with a view to the location of another Indian Reservation. There are some five or six thousand Indians in that section of the State, and their collection upon a reserve will be of vast benefit to those of our citizens who are desirous of making settlements in that rich and fertile portion of the State.

GOVERNMENT AND PENNY POSTS.—The *Town Talk* says that in addition to making up the unusually large mail by the Sonora, the interior mails were assorted on Saturday morning at so early an hour that the Penny Post Company were enabled to deliver letters ahead of the Express Companies. Such energy on the part of the Postmaster will soon direct letters into their legitimate channel, and by co-operating with the Penny Post Co., the Post Office will deservedly become one of the most popular institutions in the country.

UNNECESSARY IMPORTATIONS.—In an agricultural lecture delivered a few days ago in San Jose, Col. Warren said that he had visited the Custom House of San Francisco a short time previous, and found that within the preceding twenty-four days four thousand hogsheads, barrels and kegs of butter, seven thousand of lard, seven thousand of soap, ten thousand boxes of candles, and three thousand casks of cheese had been received from the Eastern States. We ought to manufacture enough of all these articles here for our own consumption.

SANTA ANNA NOT YET GONE—The *Cronica* says it has information that Santa Anna has not yet left Mexico. When he left the capital he ap-
