

certainly has a beneficial effect upon him.

The Indians about Shasta have again commenced their depredations and murders. They have recently attacked several trains, and murdered several men, among the number Lieut. Russell, of the U. S. A. These rascals need such a *brushing* again as they got last fall.

**SPANISH FLAT.**—The miners in the neighborhood of this old mining ground are still doing very well, some of them making as high as \$8 per day. There will be no difficulty in working on the flat all summer, as the miners will have the advantage of the water from the Bear River canal.

On Thursday, at the head of the flat, a miner while excavating in a hill side was severely hurt by the caving in of the earth upon him—his name we could not learn.

**ANOTHER OPHIR LUMP.**—They never do get tired of finding the big lumps at Ophir. A mass of gold and quartz was recently picked out near Jack Hammond's diggings by Geo Hahn & Co., and sold to Mr. Palmer of Wells, Fargo & Co.'s Express, for \$510. It weighs 80 oz.

Another piece was taken out by Mr. Herchemer, which weighed 38 oz. and yielded \$370. We know of no place in the mines which has produced as many large and beautiful specimens of gold, as
