Rhodes & Lusk's Express.

We are under obligations to this Express for regular supplies of California papers throughout the week.

SHOT AT.—We learn through Rhodes & Lusk's Express that D. D. Colton, Deputy Sheriff of Siskiyou, was fired at six times by the Indians, on the evening of the 16th inst., while returning from Scott Valley. He came in with one bullet hole through his hat and another in his saddle. We are rejoiced to hear of the escape of our friend Colton. We would rather see every Indian in the north sent to the "everlasting hunting grounds," than that the life of such a man should be sacrificed by them.

HALL & CRANDAL'S LINE OF STAGES.—We desire to return our thanks to this line for their kindness in bringing through from below several very heavy packages for this office. We assure them that we feel under many obligations.

SODA.—Drs. Paine and Beers have, we are glad to say, established in this place a Soda-water Manufactory, and every day their wagon may be seen rolling through the streets, carrying this delightful beverage to the various hotels, saloons and families.

We are indebted to their liberality for a couple dozen of lemon and sarsaparilla, which we pronounce a most excellent article.
