

which have appeared in the public journals the last few years:

[From the Boston Medical Journal.]

Although we are opposed to the system of advertising, for good and sufficient reasons, still we deem it but justice to say that Dr. Young is one of the most industrious and indefatigable votaries of the medical science in the United States.

[From Professor Jackson.]

The subscriber is personally acquainted with Dr. Young, and has seen much of his practice, and can bear testimony to his merits as a practitioner.

[From the New York Herald.]

The eminence of this distinguished gentleman in his profession, and the very extended opportunities possessed by him for the observation of venereal diseases, makes his services invaluable to those afflicted with the above complaints.

[From the Whig and Advertiser.]

All afflicted with private complaints should if possible consult Dr. Young, whose medical education is not surpassed by any physician in the country. In his skill, honor and integrity all may rely with safety, while most of the medical practitioners in this city are without honesty or responsibility, their pretensions being grounded in ignorance and assumption.

The selection of sorts for retailing is left for the purchaser to make, unless otherwise directed, thereby obviating the difficulty so often experienced by dealers under the old system of Seed Vending—that of having many kinds not wanted, and being short of those most needed. Seeds to be shipped to a distant port, will be packed in tight cases if so ordered. All wants executed faithfully and with despatch. Also—All kinds of Fruit Trees and Plants, and all varieties of Shade Trees.
