

Guadalupe.—Our accounts from this place are cheering. Miners who have been waiting for water for the past six months, have now sufficient for toming and sluicing purposes, and are making good wages. There is no section that suffers more for the want of a water ditch than this, from the quantity of good surface diggings to be had.

INDIAN TROUBLES IN DRY CREEK.—The Indians have been stealing the animals in that vicinity. They were pursued, but escaped with most of their booty. Mr. John Desmond, one of the pursuers, was drowned while attempting to swim the Upper Sacramento. He was a native of Michigan, aged about 28 years.

A Man Shot by his Wife.—Sarah Cru-field has been arrested at Levenworth, Ind. charged with shooting and killing her husband. She alleges that her husband was absent from home, and that, after night, she heard some one trying to get into the house, when she seized a gun, fired through the door, and shot him through, the heart, who proved to be her husband.

We take the following from the last *Mariposa Chronicle*:—A few days ago, Fritz, the German boy we noticed as having found the 193 pound piece, found another weighing over 10 ounces, in the same gulch.
