**TO PRINTERS**—A New Edition of the Specimen Book of Bruce's New York Type Foundry will be published in September, 1853, and will be given to those proprietors of Printing Offices who will send for it, or it will be forwarded them by mail on receipt, in advance, of fifty cents for the postage.

In it are exhibited many articles never before shown; there have been added to the Foundry new varieties of Roman types, from Nine-line Pica to Pearl, various Imitations of Writing, a great number of Fonts, Borders both Plain and Illuminated, Labor Saving Rules, and a Complete Foundry of Germans.

The types now manufactured are cast from a new combination of metal of great durability, and are usually kept on hand in large quantities. Every fancy font is sold by weight, and at the printed prices, which are from ten to twenty-five per cent. less than those of some other foundries. All other printing materials are furnished at manufacturers' prices either for cash or credit.

Printers wishing to open accounts with me, or whose dealings have been long suspended, are requested to accompany their orders with city references to prevent delay.

Printers of Newspapers who choose to publish this advertisement including this notice, three times before the 1st of August, 1854, and send me one of the papers, will be paid for it in Type when they purchase five times the amount of their bill from me, of my own manufactures, selected from my specimens.
