 Advertisements Column 2 [ADVERTISEMENT]

[Back](#)

We refer those afflicted with chills and fever, to the advertisement of Messrs. Pollard & Mason's Anti-Malaria Pills. These gentlemen have given much study to the fevers that at certain seasons prevail in the Sacramento Valley, and they are sanguine from the knowledge thus obtained, that their anti-malaria pill will prove eminently efficacious in the treatment of the fevers referred to. The pills are manufactured in Marysville, and may be procured at Dr. Shurtleff's Drug Store, in this place.

INDIAN CROPS AT TEJON PASS — J. E. Connor, writing from the Indian Reservation, says:—

“Matters go on handsomely at the Indian Reservation. The harvest is all gathered, and the threshing machine is doing its work of separation. It is indeed a most lovely and interesting sight to observe parties of Indians in their various occupations, working with the utmost cheerfulness and alacrity; some driving four and six mule teams, some feeding the threshing machine, and others attending the large crops of corn, potatoes and water-melons. The wheat crop is the best I have ever seen this year. A small portion of the yield has produced as much as *seventy bushels to the acre*, and the whole crop will average thirty-five bushels to the acre. The barley crop, being sown late, is rather light, especially that part of it sown latest. The value of the present crop, according to Los Angeles prices, is estimated at from \$300,000 to \$400,000; it is certainly an enormous crop, considering the lateness of the season at which operations were commenced.”

Lieut. Beale, late Indian Superintendent

there, may be a very bad man, but if we are to judge him by his works, he is certainly far better than a majority of the federal officers with which California has been blessed.

CLERK OF THE SUPREME COURT.—A correspondent in Marysville suggests the name of Gen. Allen, editor of the *Herald*, for Clerk of the Supreme Court.

Rhodes & Co.'s Express.

We are indebted to this Express for files of California papers through the week. Also for full files of Atlantic papers.

From Yreka.

We are indebted to Cram, Rogers & Co. and Rhodes & Co. for copies of the Yreka *Herald* of the 15th inst. We take from it the following paragraphs:

Messrs. Rhodes & Loag, formerly of Shasta, are in our city, making arrangements for the establishment of a livery stable. We understand they have purchased a lot on Second street, above the Yreka Hotel, which they intend as their location. Their animals, we are told, are now in Scott Valley. This establishment will be on an extensive scale. Success to them.

The mercury rose as high as 101 degrees above zero in the shade in our office, on last Tuesday evening at 3 o'clock.

What a catastrophe, or rather, glorious result it would be, should the Chinese of this town get to fighting among themselves, and like the two cats, fight till there would be nothing left but their tails.

 The Washington Correspondent of the *State Journal* says:

All the territorial Bills, except the Utah Bill, have passed. Utah is decidedly unpopular in Congress, and no majority in either House will ever, directly or indirectly, sanction polygamy.

We cut the following additional item from his letter:
