

lumbia, Tuolumne county, urges the claims of the Hon. Charles M. Creaner, Judge of this Judicial District, for the United States Senate. As the "Great North" has put forth its claims for this office, the correspondent says the "Great South" will present a candidate whose name is a tower of strength, and continues:

"Judge C. is not connected with any of the cliques or factions that unhappily exist in the ranks of the Democracy, but is in reality a man of the people, knowing nothing but their interests, and his lengthy history of honorable devotion to the party, is ample testimony of his fitness and capacity. Should Judge Creaner be selected, the present dissensions would be healed, and harmony would once more prevail in our councils. I am sure he could carry the vote of every Democrat in the San Joaquin District, and if he were as well known throughout the State as he is here, his name would be received with the same unanimity."

MAJ. JAMES BURNEY.—Maj. Burney arrived in town yesterday, on his way to the Atlantic States. Maj. B. came to California in July, '49, and since then has made his home here and become identified with the interests of the country. We are glad to learn that his absence will be temporary. Maj. Burney is one of our best and most enterprising citizens. He has held several responsible positions since the organization of a government on this coast, having been Sheriff of Mariposa county, and Paymaster General to the several expeditions against the Indians in this State, and proved himself a most competent, faithful and efficient officer. We heartily wish him a pleasant passage and a speedy return to California, where his numerous friends will always give him a cordial greeting.

NEW ORLEAN MAIL.—The mail steamer from New Orleans did not arrive at Aspinwall previous to the sailing of the Golden Gate; consequently we are not in receipt of New Orleans papers.
