

San Francisco papers during the week.

fine, appeared.—The *Mountain Herald* comes
the inhabitants of Shasta, no doubt that
and duly reward the enterprize ~~disprop~~iate
the Proprietors in their efforts to furnish the
public with so valuable a paper.

The *Courier* contains another excellent
article on the Indian Question. It still main-
tains that the Indian Agent *has a right* to re-
lieve the Indians, even though they do not
go to the Reservation. We think so, too.

We thank the *Courier* for its recommenda-
tion of ourselves to the editorial fraternity,
and would say that the last qualification which
our friend Dosh says we possess, seems to be
a very necessary one, judging from our ac-
quaintance with the editorial fraternity of
California, which acquaintance, however, is
limited to the press of Shasta.

“THE DREAM AT SEA.”—We would call
the attention of our readers to these beautiful
verses, which they will find on our fourth
page. We think that the author (Mr. Wells)
possesses Poetic genius of no ordinary char-
acter.

Several mistakes occurred in the printing
of the Stanzas, last week entitled “The Wan-
derer” which materially altered their rhy-
thm and meaning. We will republish them
next week and endeavor to have them cor-
rect.

From the *Mountain Herald* of the 6th
inst. we clip the following items :

YREKA AND SHASTA TURNPIKE ROAD. —
