

ing."

JAIL DELIVERY.—On Friday night last four State prisoners confined in the Marysville jail, made their escape by digging through the wall of the cell in which they were confined. Their names are Cradle, Wright, Kellinger, Farrow and Diego Flores. The Sheriff of Yuba offers a reward of one hundred dollars each for their recapture.

BLACK BALD EAGLE.—The *Shasta Courier* states that Mr. Edmonds, of Red Bluffs, shot a bald eagle last week that measured eleven feet from tip to tip. This magnificent bird was of a glossy black, with the exception of its head and tail, which were white. It was first brought to the ground by a shot from the gun of Mr. Maxwell, of the same place.

THE NOUZE INDIANS.—The *Shasta Courier*, of the 24th, states that several men and forty of fifty squaws, with their children, belonging to this tribe of Indians, are now on Job Dye's ranch, and desirous of making a treaty with the whites, as they have recently been set upon by a party of the latter.

THE MINT.—From the *Chronicle* we learn that the mint is now very busy. There is a great demand for coin. The mint and the private refineries ought to be able to assay \$500,000 per day, and when assayed bars are to be had they are nearly as good for making large payments as coin.

THE MARYSVILLE branch of Wells, Fargo & Co.'s house appears to be in a flourishing condition. The *Express* says that Mr. Hodges, the agent, forwarded \$20,000 to San Francisco on Sunday, beside retaining sufficient for home depositors.
