From Yreka.

From the Yreka *Union* of the 8th inst., we learn still further Indian outrages in that quarter. It says:

We regret much that necessity compels us to publish an account of still another "tragedy," lately "committed" in his own neighborhood by these self same Indians. Mr. A. Goldsmith, agent of the Pacific Express to Oregon has brought the intelligence that on Saturday last a party of men started from Jacksonville in search of horses that had been stolen by the Indians. — When they had arrived within about six miles of Russell's Mountain House, at the Head of Rogue River Valley, on the emigrant trail, they discovered tracks of animals which they supposed to be theirs—they had proceeded but little farther when they were attacked by a large party of Indians well armed and equipped for offence. A man named Keys was killed on the spot; the remainder were obliged to retreat—two of these were so severely wounded that they were near being left behind by their comrades. The next day the body of the deceased was found with the throat cut—the heart taken from his breast and cavity filled with rock; the body was otherwise shockingly mutilated.—Forty U S troops are now searching for the murderers.

THE NEXT SENATE.—The Sacramento *Tribune* thus classifies the Senators holding over:—

KNOW NOTHINGS.—Flint, Hawkes, McCoun, Gove, Scellen, Burton, Hawthorne,—8.

DEMOCRATS.—Heintzelman, Lippincott, Rust, Hook, French, Norman, Mandeville, McNeil, and Day,—9.

The same paper thus classifies the Senators elect, (the names in *italics* :)
