NOMEES LACKEE RESERVATION.—Col. Henley, Indian Agent for California, who left the Reservation in Colusa county only a few day ago, furnishes the *Sacramento Union* with the subjoined items:

There are now fifteen hundred Indians on the Reservation, which is superintended over by Mr. Lovell, the Deputy Agent, Mr. Ford having gone over to the Coast. Every thing denotes business, activity and industry about the grounds, the Indians being assiduously engaged in hauling hay, sowing wheat, building houses, and preparing for the rainy season. The health of the Indians is good, and they appear contented and happy in their civilized home.

SPECIAL INDIAN AGENT.—George M. Hanson, Esq., of Yuba City, has received the appointment of Special Indian Agent for Marysville and the region round about. Mr. H., says the *Marysville Herald*, has much influence with the Indians at Yuba City, and the appointment we consider to be a good one. Mr. Hanson is about to visit the Nomee Lackee Reservation, and intends to take some of the chiefs of the tribe at Yuba City with him, so that by personal inspection they can see how much their condition would be improved by a removal to that Reservation.

GUBERNATORIAL SELECTIONS.—The *State Journal* says that Col. J. Neely Johnson has already made his selections for the offices of Secretary of State and private Secretary, and that Gen. David S. Douglass, of San Joaquin, is to fill the former and W. H. Rhodes, of San Francisco, the latter office.

A CHANCE FOR BARNUM.—The *State Tribune* is informed that there resides within a few miles of Sacramento, a girl only sixteen years of age, who weighs *four hundred and fifteen pounds*, and is increasing in flesh at the rate of three pounds per week.

SHEEP.—Messrs. Skeggs & Kirby crossed the Yuba, at Marysville, on Friday morning, with a drove of 3,000 sheep. They left Salt Lake on the 5th of May with 4,000, losing 1,000 on the journey.

YOUNG AMERICA.—Last week an ox team, drawing a load of lumber, passed the office of the *Democrat*, in Placerville, driven by a boy four years old.

We are pleased to acknowledge the receipt of the Report of Prof. A. D. Bache, Superintendent of the U. S. Coast Survey, to which is annexed fifty-four maps and sketches on the Atlantic and Pacific coast, comprising about 400 pages of invaluable matter to the seafaring man and the commercial marine generally.

THANKSGIVING.—By a notice in another column, it will be observed that Governor Bigler has appointed the 29th inst. as Thanksgiving day. The same day has been appointed by the Executives of some of the Atlantic States.

Hon. Wm. Gwin and Hon. M. S. Latham will
